One of the top concerns for consumers around the world, and certainly in the United States, is finding affordable housing. Among the top reasons for buying or selling a home are the availability of housing and the price. As you know, home values are on the rise again after a long decline, and median home values in the United States have reached a seven-year high, according to the S&P/Case-Shiller Home Price Index released in September. Homeowners' equity is higher than it has been in more than 10 years. How much is your home
