About This Content

Never before have there been so many objects on an X-Plane airport to discover as with Britain's major airport, London Heathrow. The scenery includes all five terminals and animated apron traffic. The award-winning team sim-wings convinces with a model of perfection for such a Mega Hub!

Find out what commercial aviation is all about by joining the traffic of the world's third busiest airport. The scenery covers around 42 square kilometres in total with fully detailed buildings at the airport, including the new T2 and T2B terminals. Fully customized high resolution aerial ground textures, detailed ground markings and the actual taxiway layout with new rapid runway exits and taxiway links make it a perfect rendition while use of LOD technique will give you the best possible performance..

I like it, Heathrow is my most beloved airport in the world. I love the detail work from Heathrow pods rolling in and out from Terminal 5, the Bus station in Heathrow Central and even the London Underground sign has made it like in real life. The only thing is, the night scenery should have more lights, i mean... i look out on my windows right now on Heathrow and all i see is dozens of light sources, even more brighter than the downtown sky. But for me this is a 4/5.
